da Ave. toward street light at 127th St. when he saw two southbound vehicles headed toward him. One of them slowed down, but the other did not and collided with the rear of his car at a speed of approximately 60 miles per hour. He was not injured, nor were his wife and two children, who also were in the car.

The Los Angeles

Steelmen to Get 30 Service Pins

Service pins signifying 30 years with U. S. Steel Corp. will be awarded this week to two employees of the Columbia Steel Company, it was announced this week.

Harry R. Boynton, 1623 Beech Ave., who has worked as a rougher on the 12-inch mill since July 27, 1923, will receive his service award from Frank Scheliga, superintendent of the rolling mill.

John Arutoff, a resident of Gardena, came to work at Columbia on July 2, 1923 as a laborer and is currently employed as a burner in the open hearth department. He will be presented his award by John Oursler, superintendent of the open hearth department.

Quick Work By Torrance Policeman Vabs Thief 12 Minutes After Job

A Los Angeles heist artist is languishing in county jail to lay after one of the shortest manhunts on record.

Sgt. Bill Evans, of the Torrance Police Department, recalled this thief 12 minutes after a call came over his car radio to be on the lookout for three men who had just robbed a nursery in Manhattan Beach.

At 2:15 Thursday afternoon Evans heard the call come over his radio. He was alone in the car. At 2:27 he intercepted the suspects' car at Normandie Ave. and Pacific Coast Hwy., in front of the Greyhound bus station.

While he was lining up the suspects and frisking them, Det. Capt. Ernie Ashton and Officer Buck Ingram were on the way to assist Evans in the pinch.

The whole thing started when James E. Williams, 18, of Los Angeles, went into the La Solania Nursery in Manhattan Beach and made a small purchase, then walked out, but returned when the owner had some to the rear of the store, and jimmied open the cash register with a screwdriver.

Hearing the cash register open, the owner returned in time to see Williams running out the front door. The owner went in pursuit and caught Williams just as he was about to enter a car containing two accomplices — Charles and Osborne Mackey, brothers, also of Los Angeles.

He demanded that Williams return the \$60 he had taken from the jimmied cash register. Williams gave him part of the money, police said, then banged the nursery owner on the head with a screwdriver when he demanded the rest of the cash.

The three then drove off, heading south out of Manhattan Beach on Pacific Coast Hwy. The call went out, Sgt. Evans heard it, and the rest is legend.

When Williams is through serving 180 days on a petty theft charge he will probably be tried on an assault with a deadly weapon charge. His arraignment on this charge will be in the near future, Manhattan Beach police said. Osborne Mackey was found to be a parole violator, and his brother was held and later released.

Antiaircraft

(Continued from Page 1)

is part of a program for Southern California, Arizona, and Nevada which may run as much as \$100,000,000, officials have said.

Members of the 47th Antiaircraft Artillery Brigade at Fort MacArthur will staff the proposed defense units. In an emergency, the 47th would be supplemented by the 234th AAA Group of Long Beach.

City Law May Be Drafted To Abate Livestock Odors

Complaints from various local residents that flies from livestock farms have been biting their children, and that strange and noxious odors have been threatening their health and their tempers may lead to an ordinance which will induce compatibility between private homes and hog ranches, it was reported this week.

A special conference has been scheduled for July 29 at 8 p.m. in the City Hall between operators of local hog farms, dairies, and poultry farms, and a committee made up of members of the City Planning Commission to discuss methods of enabling citizens to live in harmony with livestock.

The committee, headed by R. J. Deisinger, Planning Commissioner, is presently trying to work out an ordinance which will make the facilities more acceptable to nearby homeowners.

Ever since tract construction moved into areas once predominated by livestock owners, complaints have been registered in abundance by owners of homes adjacent to these establishments. These complaints are often more frequent in hot weather because of the affinity of certain insects for warmth.

Deisinger stated that it was his desire to give the operators a chance for a fair hearing and to find out from them how the situation can be resolved.
